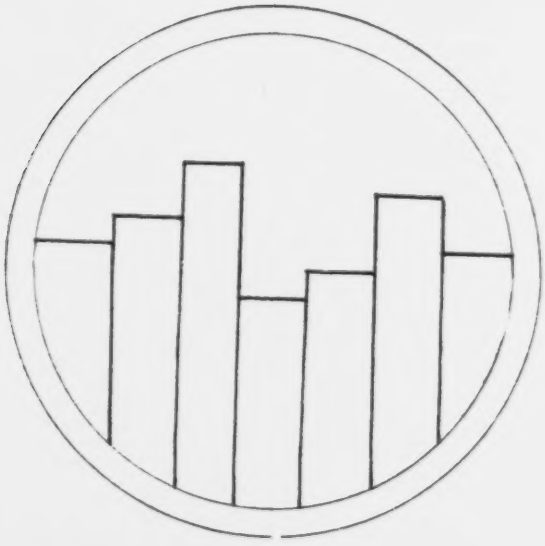
The following is a list of public employment offices of the Oklahoma State Employment Service:

LOCATION	MANAGER
ADA	Charles R. Null
1628 East Beverly Drive	
ALTUS	Julio Beltran
312 West Cypress	
ARDMORE	Lee Roy Hatfield
201 "A" Street, S. W.	
BARTLESVILLE	Donita McCarrell
501 E. 5th Street	
BROKEN ARROW	Harold Martinson
704 West Oakland	
CHICKASHA	Gregory C. Campbell
628 Kansas Avenue	
CLAREMORE	Ron Novotny
1810 North Sioux	
CLINTON	Ruth Switzer
1120 Frisco Avenue	
DUNCAN	Larry Donnell
122 South 11th Street	
DURANT	Michael B. Morrison
124 West Cedar	
EDMOND	Martin Bellows
2120 S. Broadway Extension	
ELK CITY	James R. Hale
115 South Jefferson	
ENID	A. K. Armstrong
215 Kenwood Boulevard	
GUYMON	Harold A. Duvall
707 North Main Street	
HOLDENVILLE	Yvonne Huser
115 N. Rodgers Drive	
HUGO	George Robison
402 East Jackson	
IDABEL	Jerry Lane
Hwy. 70 East Brinkley Drive	
LAWTON	Jack Manley
811 "D" Avenue	
McALESTER	Venetta Welsh
1201 East Wyandotte	
MIAMI	D. Wendell Prentice
100 "A" Avenue, N. E.	
MUSKOGEE	Johnnie Leeds
704 East Side Boulevard	
NORMAN	Marcus Weatherall
300 North Crawford	
OKLAHOMA CITY	
919 N. W. 23rd Street	Terry Watson
4100 S. Douglas	David Slimp
8720 S.E. Fifteenth Street	Roger Pendergast
4345 N. W. 50th Street	Jacci Wirth
717 South Service Rd., Moore	Lois Lackey
3740 Springlake Drive	Audrey F. Adams
OKMULGEE	Erna Wilson
108 West Fifth Street	
PONCA CITY	Virgil E. Mehlig
2304 N. Fourteenth	
POTEAU	Neville M. Brehm
305 Clayton	
PRYOR	John Carter
219 N. E. First Street	
SAPULPA	Lucille Mitchell
1612 South Main	
SEMINOLE	Warren Schroeder
111 North Fourth Street	
SHAWNEE	Phyllis Fuxa
127 North Park	
STILLWATER	Terry Coleman
730 South Western	
TAHLEQUAH	Gary Harrington
1611 South Muskogee	
TULSA	
818 South Boston	Gene Hunter
3105 East Skelly Drive	Peggy Phillips
11322B East 21st Street	Richard Robey
5025 North Peoria	Vacie Deal
401-J E. Broadway, Sand Springs	Rex Terrill
WOODWARD	Kenneth Alexander
1106 Texas Avenue	

OKLAHOMA ECONOMIC INDICATORS



"Oklahoma Economic Indicators" is published monthly by the Oklahoma Employment Security Commission Research and Planning - under the supervision of **Bill Hunter**. The compilation, analysis and narrative description of data is provided by **Roger Jacks**. Copies are available at no cost on request. For additional information, please write or call: Oklahoma Employment Security Commission, Research and Planning, 310 Will Rogers Memorial Office Building, Oklahoma City, Oklahoma 73105, AC 405 521 3735.

This publication is issued by and is a part of the activities of the Oklahoma Employment Security Commission as authorized by and under the Oklahoma Employment Security Act. Four hundred copies have been prepared and distributed on request at a cost computed to be $307.78 and paid out of Federal funds granted by the U. S. Department of Labor.

OKLAHOMA ECONOMIC INDICATORS

October 1979

Oklahoma's economy declined somewhat during this report month as five of the seasonally adjusted series advanced, eight declined and two remained unchanged. Although most sectors of the economy continued to move unsteadily during the period, the economy has generally strengthened as evidenced by the number of indicators continuing to record above year-ago readings. The current condition of the national economy and Oklahoma's previous economic trends could create a slight economic slowdown later in the year.

Labor Market

The labor market lost momentum as one of the indicators increased, six decreased and two remained unchanged from a month earlier. Nonagricultural wage and salary employment moved favorably during the month. However, nonagricultural job openings and job placements continued to decline slightly during September. The labor market exhibited some weaknesses during the month, but with support from the other sectors of the economy could regain a generally upward course. Few of the labor market series have recorded dramatic changes in recent months, but most levels are above one year ago.

Business

The business sector stabilized during the month as two of the indicators recorded a gain and two recorded a loss. Construction contracts awarded and the average daily barrels of crude oil pipeline runs declined in comparison to recent months. Uncertainty on the part of business to increase production seems to have temporarily returned, however, even though most of the indicators relating to business conditions were well above year-ago readings.

Finance

The financial series gained momentum during September. Seasonally adjusted personal income advanced slightly during the month as did sales tax collections. Apparently, consumers are becoming less reluctant to spend their increasing incomes on goods and services. The financial sector should provide much needed support to other areas of the economy.

OKLAHOMA ECONOMIC INDICATORS

Introductory Notes

The techniques and format are based on the work of the National Bureau of Economic Research and are similar to those used in the monthly periodical, "Business Conditions Digest," issued by the Bureau of the Census. The charts show, in shaded areas, periods of national business downturns as determined by the National Bureau of Economic Research. Moreover, the indicators are classified as leading, roughly coincident and lagging according to their timing in relation to the national downturns.

Statistical data for a series of selected economic activity in Oklahoma have been collected and adjusted for seasonal variation so that their movements over a period of time will reveal their characteristics of cyclical expansion and contraction. The presentation of the indicators may be changed subsequently as new series are developed or become available.

Guide For Reading Indicator Charts

Peak (P) of cycle indicates end of expansion and beginning of recession (shaded areas) as designated by National Bureau of Economic Research. Trough (T) of cycle indicates end of recession and beginning of expansion (unshaded areas).

Arabic number indicates latest month for which data are plotted. ("5" = May)

Various scales are used to highlight the patterns of the individual series. "Scale A" is an arithmetic scale, "Scale L-2" is a logarithmic scale with 2 cycles in a given distance, etc. The scales should be carefully noted because they show whether or not the plotted lines for various series are directly comparable.

Solid line indicates monthly data. (Data may be actual monthly figures or moving averages.)

Broken line indicates actual monthly data where a moving average is plotted.

Parallel lines indicate a break in continuity (data not available, changes in series definitions, extreme values, etc.)

Four items pertaining to unemployment (series 4, 9, 10 and 16) are inverted so they will rise and fall with the other indicators. A rise in these series as plotted is favorable and a fall unfavorable.

DESCRIPTION AND SOURCE OF TIME SERIES ANALYZED

Leading Indicators

1. **Average Workweek, Manufacturing Production Workers.** Total hours of production, maintenance and related workers in Oklahoma's manufacturing industries during midweek of month divided by number of such workers. Source: **Oklahoma Employment Security Commission.**

2. **Job Openings Received, Nonagricultural.** Comprised of nonagricultural job openings placed by employers with the Oklahoma Employment Service. Source: **Oklahoma Employment Security Commission.**

3. **Job Placements, Nonagricultural.** Total number of job placements other than in agriculture as made through the Oklahoma Employment Service. Source: **Oklahoma Employment Security Commission.**

4. **Initial Claims, Average Weekly.** Number of initial unemployment insurance claims for benefits filed each week, weighted according to working days in the week, totaled and divided by the number of such days to obtain the weekly average. Source: **Oklahoma Employment Security Commission.**

5. **Construction Contracts - Total Value.** Total value of contracts awarded for residential and nonresidential building in Oklahoma. Non-building contracts are not included. Source: **F. W. Dodge Company.**

6. **New Business Incorporations.** Total number of new businesses incorporated in Oklahoma. All such organizations are required to register with the Secretary of State. Source: **Dun and Bradstreet, Inc.**

7. **Crude Oil Pipeline Runs.** Average number of barrels moved daily from the production site. Source: **Oklahoma Corporation Commission.**

Roughly Coincident Indicators

8. **Nonagricultural Wage and Salary Employment.** Includes all wage and salary workers in Oklahoma except the self-employed, domestics in private households, unpaid family members and farm workers. Source: **Oklahoma Employment Security Commission.**

9. **Unemployment Rate, Total.** Number of persons estimated to be unemployed in Oklahoma based on methods prescribed by U.S. Department of Labor. Source: **Oklahoma Employment Security Commission.**

10. **Insured Unemployment Rate - Average Weekly.** Number of persons filing continued claims for unemployment insurance benefits during average week of current month divided by average number of workers in covered employment for the most recent available 12 month period. Source: **Oklahoma Employment Security Commission.**

11. **Man-hour Index.** The total hours worked by manufacturing production workers in Oklahoma. The base period of 1967 = 100 percent. Source: **Oklahoma Employment Security Commission.**

12. **Personal Income.** The current income received by individuals in Oklahoma from all sources. Source: **Business Week, McGraw-Hill Publications.**

13. **Sales Tax Collections.** State two-percent sales tax collections for report month relate to month of actual sales. City sales tax not included. Source: **Oklahoma Tax Commission.**

14.

15. **Electric Power Sales to Industrial Users.** Monthly total of kilowatt hours sold to industrial users in Oklahoma. Source: **Edison Electric Institute.**

Lagging Indicators

16. **Unemployment Insurance Exhaustions.** Data relate to unemployment compensation claimants who receive their maximum benefits in a benefit year before obtaining employment. Source: **Oklahoma Employment Security Commission.**
